Welcome to advanced Yiddish! This course will build on the knowledge and skills you’ve acquired in intermediate Yiddish. This course will be conducted entirely in Yiddish. Literary, historical and other texts will be considered, along with film, folklore, and music. This course conducted entirely in Yiddish focuses on advanced reading, writing, vocabulary and conversation. We will workshop reading handwritten documents in Yiddish. We will analyze poetry and short fiction by Yiddish women authors. We will also go through selected advanced grammatical topics. We will, goes without saying, sing songs and play games.

As you can see from the grading system, active classroom participation is very important, as are daily homework assignments - always due on the next class. I am always happy to meet with you to discuss any questions or concerns you may have about the class, or to give you additional help that you might need.

You will be asked to present the results of a small creative project during the last class. You have a wide variety of options for project topics and formats. It can be a research or a translation project, or you may want to write and/or perform a story, poem or skit in Yiddish. You may want to work on your project individually or in a group.

Please don’t hesitate to email or call me with any questions, concerns, comments, etc.
